

What is affordable healthcare?

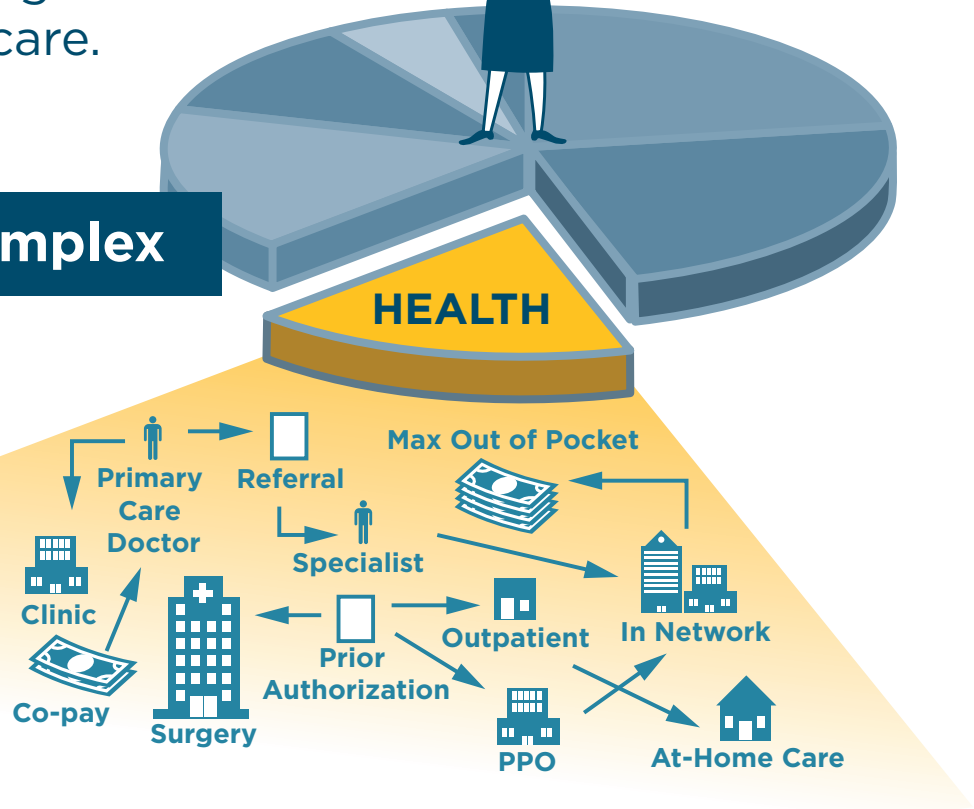

FROM THE PATIENT POINT OF VIEW

I judge affordability based on how much of my household budget I spend on healthcare.

This system is complex

I need navigators and tools to support me as I make decisions about my care.

Affordability doesn't exist in a vacuum

There are often options to improve your healthcare, but you have to know what questions to ask.

People need healthcare information tailored to their life and situation.

People's views on affordability vary with the type of healthcare decision.
